

Here is a list of Extra Curricular activities on your application (Clubs NOT Sports). These are the things that can make your file better as these things show a “well-rounded” candidate with leadership. Please look at the list attached and see if any of the clubs could apply to you. Activities, sports and academics are very important because you have to show them that you can do all this stuff and still maintain good grades. That is what you have to do here at West Point. Rank in Class and your SAT/ACT test scores are also a BIG MAJOR factor in your file. If you listed some things on your application just take another look in case you missed something.

Cert. EMT or Fire Fighter	

At the end of your Junior Year send me a chronological resume with all your clubs with leadership positions (pres, vp, secretary) and years in them. Sports with years in activity and Varsity Letters awarded and if you are Captain of the team. Also any employment and all volunteer work and list any awards you have received in High School if you haven't already.

We send a sample format we would like used because at review time there are over 3000 files that will be reviewed. It is essential that all the important information can be found quickly so that we do not miss anything that could possible improve your file. We do not need a resume with a bunch of indents and bullets we need to be able to quickly pick out what we need.
